

# Nnange Akweh AWONG

## PROFILE SUMMARY

Full-stack software developer with 3+ years of professional experience in web application development, frontend and backend engineering, and DevOps. Strong expertise in JavaScript/TypeScript, React, Svelte, HTML, CSS, and backend development with Java, Spring Boot, and Node.js. Proven experience with RESTful APIs, microservices, CI/CD pipelines (Jenkins), Docker, cloud platforms (AWS), and Linux-based systems. Skilled in Git, automated testing, deployment automation, and agile software development (Scrum). Currently completing an MSc in Information Engineering & Computer Science. Results-oriented, fast learner, and experienced in delivering scalable, production-ready software solutions.

## PERSONAL INFORMATION

Date of birth: **23.05.1998**  
Marital Status: **Single**  
Languages: **English, German, French**

## SKILLS

- ◊ Html, Css, JavaScript, Svelte, React
- ◊ Java, SpringBoot, Postgresql,
- ◊ VsCode, IntelliJ, Docker, Nginx, AWS Cloud
- ◊ Jenkins, Sonarquube, Fortify
- ◊ Linux, MacOS, Windows
- ◊ Communication and team collaboration

## HOBBIES

Listening Music, Football, Video Games, Table Tennis

## EXPERIENCE

### WORKING STUDENT - SOFTWARE DEVELOPMENT, Amadeus, Herzogenrath, DE 05.2023 – present

- ◊ Designed and developed scalable web applications using SvelteKit, Angular, Node.js, and Spring Boot, contributing to robust user experiences and improved performance
- ◊ Built and maintained RESTful APIs with Spring Boot, enabling seamless communication between microservices and frontend components
- ◊ Automated build and deployment pipelines using Git workflows and internal CI tools (Jenkins), reducing time-to-release
- ◊ Deployed frontend applications to development, staging, and production environments, ensuring release consistency and minimizing post-deployment issues
- ◊ Collaborated in Agile teams, conducted code reviews, and maintained technical documentation on Confluence for smoother onboarding and knowledge sharing

### Working Student - IT System Admin, DKB Codefactory, Berlin, DE 03.2022 – 08.2022

- ◊ Maintained and monitored hybrid infrastructure using AWS, Docker, Kubernetes, and Ansible
- ◊ Integrated CI/CD pipelines and automated environment provisioning, decreasing deployment errors
- ◊ Resolved system incidents proactively, improving overall system uptime and response time

### Internship - Software Development, Curawork, Bielefeld, DE 04.2021 – 09.2021

- ◊ Frontend development of the UI and the UX through design implementation of the various features of the Curawork platform using HTML, CSS and vanilla Javascript
- ◊ Designed and implemented responsive UI components using HTML, CSS, and JavaScript, enhancing UX across devices
- ◊ Built scalable UI templates aligned with brand design, reducing bounce rate
- ◊ Creation of the UI with the design templates already available and ensuring good scaling for different screen sizes
- ◊ Supported secure data handling and collaborated on feature planning and testing

## EDUCATION & CERTIFICATIONS

### Rhein-Waal University of Applied Sciences, Kamp-lintfort

- ◊ M.Sc. Information Engineering and Computer Science **09.2024–02.2026**
- ◊ B.Sc. Communication and Information Engineering **09.2018–08.2024**
- AWS Certified Cloud Practitioner **11.2025**

## PROJECTS & INTERESTS

- ◊ **CI/CD Pipeline Automation:** Integrated Jenkins pipeline securing deployment with SonarQube, improving code quality in deployments
- ◊ **AI-Powered Form Filler NLP Tool:** Built an NLP pipeline for auto-filling forms using entity recognition on patient and property maintenance data
